Dr. Kirsten Lund-Jürgensen is the Executive Vice President and President, Pfizer Global Supply (PGS). She is responsible for Pfizer's internal and external manufacturing and supply network. Throughout her 30-year pharmaceutical industry career, she has held a variety of global leadership roles in manufacturing and supply. Kirsten is a member of the Executive Committee of the Board of Directors of the U.S. National Association of Manufacturers, on the Board of the Pfizer Foundation, and the Executive Sponsor for Pfizer's Environmental Sustainability Program.

Kirsten is a pharmacist from the University of Kiel, Germany and holds a Ph.D. in Pharmaceutical Biology from the Albert Ludwigs University of Freiburg, Germany.

The seminar series "Academia meets Industry" aims at stimulating interdisciplinary discussions between university members and high profile managers from industry and public health organizations. It addresses the complex challenges in science, management, politics and society which are promoted by both university and industry in a concerted action. At these seminars the practical perspective of the guest speakers encounters the education and research priorities of the university and thus allows an unprecedented dialogue on chances and risks of current and future research developments in life sciences.
